

BRIO 2.0

Design by UNILUX in France

«BRIO: made in France and distributed at the best price.
All the visual comfort of an LED lighting.»

LED

Economic and efficient

BRIO 2.0 is supplied with a LED tube 8W socket G23 : the lighting quality of LED is combined with a low energy consumption, compared with a halogen or incandescent lighting material. **BRIO 2.0 ensures a perfect lighting diffusion with the LED technology and elongated shade : no glare and better visual comfort.**

Made in France

DESIGN

A modernity french touch

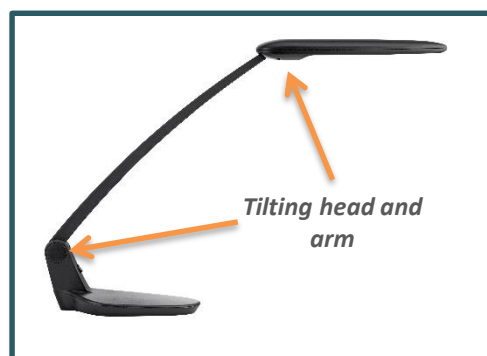

The design of the lamp BRIO LED was revisited. It brings dynamism and modernity while keeping the charm and coast reassuring

ERGONOMIC

Double arm

The arm of the BRIO2.0 lamp is fitted with a double (upper and lower) articulation with a tightening screw, enabling an optimal adjustment of the product. Its switch is located on the base for an easy access
