

R'CLEAN

«R'CLEAN: the air purifier designed to clean indoor air in all professional environments!.»

WHY USE AN AIR PURIFIER?

We spend 90% of our time indoors, and 9 hours each day sharing this space with others. We do not pay much attention to the air we breathe, yet we should. **Indoor air is 5 times more polluted than outdoor air.**

Public spaces, such as offices, are places that are conducive to the proliferation of bacteria, viruses, dust, allergens, chemical vapors and odors. In addition to all these bacteria and other allergens, there is also carbon dioxide (CO₂).

IMPROVED AIR WILL BRING FATIGUE, DECLINE CONCENTRATION AND PRODUCTIVITY, INCREASE IN ABSENTEISM

DISCREET AND EFFICIENT

R'CLEAN, how it works?

R'CLEAN has been designed to install easily and operate discreetly to enjoy everywhere indoor air healthy and pure. It purifies the air in 4 steps :

1. Pre-filter captures and removes large particles and pollutants.
2. Activated carbon filter absorbs odors and VOCs.
3. The ionization system will electrically charge the harmful particles to weigh them down and thus absorb them more quickly.
4. Finally R'CLEAN benefits in addition to the UV function. This air treatment is particularly effective against germs, microbes, viruses and bacteria. In short, everything that is alive and that is likely to make you sick. In addition, it oxidizes VOCs and odors

CAPACITY OF AIR TREATMENT : 160m³/h
for a aera of about : 35m²

THE ADVANTAGES

Smart analysis of air quality

In addition to many additional functions such as the timer, the 5 speed levels, and the filter change indicator, R'CLEAN will automatically inform you about the ambient air quality thanks to its indicator light quality indicator.

There are 4 levels :

- Blue: excellent air quality
- Yellow: normal air quality
- Purple: poor air quality
- Red: very bad air quality

Finally, its 360 ° technical design of cylindrical shape allows a better purification and air circulation while being more compact and better than air purifiers of traditional rectangular shape.

DIMENSIONS

*You will also find in the same range
the compact air purifier R'PURE*
