

NYMPHEA

«The result of our work with *Occupational Medicine*, NYMPHEA contributes to fight against TMS*» * TMS is Tension myositis syndrome

ERGONOMIC

Prevents musculoskeletal disorders

The daily use of the NYMPHEA footrest prevents muscle and back pain associated with poor posture. Designed in partnership with '*The Industrial medecine*', it enables better resting lower leg position.

FUNCTIONAL

Adapts to all body types

NYMPHEA is adjustable in inclination (0 to 20 °) and height (8 to 20cm) thanks to its axis system. The extremely simple adjustment allows this footrest to adapt to all morphologies. Its flip-flop movement ensures good blood circulation.

Adjustable in height from 12 to 17 cm and incline from 0 to 20°:

MOVEMENT

Its tray is equipped with a non-slip support surface that holds the feet in place naturally. Pads located below the structure ensure product stability once placed on the floor, regardless of the surface of the room.
